On behalf of Marriott's Western Region Leadership Council, we want to take a moment to "Thank You" for your time and the outstanding educational experience you provided our entire group at our recent Western Region University. We have gone through all of the attendee surveys and we wanted to share with you that your presentation and morning exercise boot camps were a "huge" success!

We truly appreciated your ability to customize your presentation to meet the needs of our 400 attendees. We were all impressed with your ability to take a complex subject such as health & nutrition and make it fun and engaging for all involved. Training is a key initiative for Marriott and we always encourage our associates to focus on 3 to 5 key learning's and incorporate them into their daily routines. Your style of teaching compliments our direction extremely well, thus there is no doubt you will be invited back to help us continue improving the health and professionalism of our Marriott associates.

With Great Appreciation,

WRU Planning & Design Committee
